All 3-4 year olds are all entitled to 15 hours per week of government funding for their nursery education the term after their 3rd birthday. Beech Hill is available for fee paid places for children not able to access a government funded place or to extend their funded place for extra hours.

Activities and learning within the setting

Your child will be learning skills, acquiring new knowledge and demonstrating their understanding through 7 areas of learning and development.

Children should mostly develop the 3 prime areas first. These are:

Communication and language, Physical development and Personal, social and emotional development.

These prime areas are those most essential for your child's healthy development and future learning.

As children grow, the prime areas will help them to develop skills in 4 specific areas. These are:

Literacy, Mathematics, Understanding the world and Expressive arts and design.

These 7 areas are used to plan your child's learning and activities. The professionals teaching and supporting your child will make sure that the activities are suited to your child's unique needs.

Children in the EYFS learn by playing and exploring, being active, and through creative and critical thinking which takes place both indoors and outside.
