

History Intent

Throughout their learning journey at Beech Hill School, the children will gain a coherent knowledge and understanding of *Britain's past and that of the wider world*. One of our aims is to *inspire pupils' curiosity* about the past in order to support and encourage the asking of perceptive questions, critical thinking and the development of perspective and judgement. We will support our children to do this by building awareness of both their own heritage and that of the wider world, and by equipping them with essential disciplinary skills that can be used in meaningful historical enquiry.

We aim to supply the children with the resources and tools needed to be effective historians who are able to understand the complexity of *people's lives, the process of change, the diversity of societies and the relationships between different groups*.

Artefacts, visitors and educational visits are used to stimulate an in-depth and analytic understanding of significant events in British history as well as an appreciation of how things have changed and will continue to change over time. The children are taught the skills that will enable them to have a better understanding of the society in which they live and that of the wider world, as well as how history of wider world has impacted upon Britain both in the past and the present. This helps the children to gain a sense of their own identity within a social, political, cultural and economic background. Without History, there would not be a future!

This process of knowledge acquisition begins in Reception with a focus on local history and familiar aspects of the past. Learning about the immediate world around them is the ideal foundation for later composite learning in Key Stage 1 and 2. This component learning is undertaken whilst children also build knowledge of substantive concepts and slowly enrich their chronological schema. Children learn to ask questions, use different sources and begin to understand that the past can be represented in different ways.

In Key Stage 2, children's chronological frameworks are further developed, at a local, national and international level. This includes a focus, for example, on the Romans, Anglo-Saxons and Scots, an early civilisations overview, Ancient Greece, Ancient Egypt, Ancient Islamic Civilisations and World War II. Whilst developing this wider chronological understanding of history, our children build and add to timelines through the year groups to ensure they can reference and refer to events from prior learning. Disciplinary knowledge continues to be systematically developed accordingly, in tandem with this substantive knowledge.

Understanding Different Types of Knowledge in History

Substantive Knowledge

This is factual knowledge of the past: key events, place and people. It includes four types of knowledge: 'Generative Knowledge', 'Substantive Concepts', 'Chronological Knowledge' and 'Fingertip Knowledge' (Must Know Facts)

- **Generative Knowledge** is the essential, underpinning, in-depth knowledge of a topic or time period that supports further historical learning and thus supports pupils to generate more knowledge. Generative knowledge can be categorised into 'substantive concepts' (abstract concepts such as monarchy, trade, or empire) and chronological knowledge (knowledge relating to broader developments and the features of historical periods).
- **Substantive Concepts** are concepts concerned with the subject matter of history, such as civilisation, monarchy, empire, invasion, war, parliament, trade and religion. They are embedded throughout the curriculum so that each one is planned to be encountered multiple times throughout the curriculum. Substantive concepts are best understood with repeated encounters in specific, meaningful contexts, rather than being taught in an abstract way. Substantive concepts are classed as generative knowledge because they support the

learning of new material. For example, understanding the concept of civilisation from an earlier topic supports understanding of the next topic which involves civilisation.

- **Chronological Knowledge** is also generative knowledge. This is the specific knowledge of the broad characteristics of historical periods and supports pupils to build coherent schema for particular topics.
- **Fingertip Knowledge** is the knowledge of the key facts and dates which pupils need in their minds, or at their fingertips, whilst undertaking historical enquiries, without which they would be incapable of constructing answers. Without essential fingertip knowledge, working memory is overloaded when undertaking enquiries, and it is thus useful to have this fingertip knowledge in Must Know Facts. Fingertip knowledge must be taught and pupils must retain it during their enquiry. However, gaining this type of knowledge is not the ultimate long term aim of the primary classroom, and it may not be needed beyond the current topic.

Disciplinary Knowledge and Historical Enquiry

Disciplinary knowledge is knowledge about how historians investigate the past, and how they construct historical claims, arguments and accounts - it is the knowledge of how to undertake historical enquiry. Pupils learn disciplinary knowledge within relevant historical contexts through application to substantive knowledge. Units of learning are framed around central big questions which focus a unit of work on elements of this disciplinary knowledge. This knowledge of historical enquiry frames what pupils learn about the past, supporting them to consider the status of historical claims. It enables them to place their historical knowledge in a broad context. It helps pupils to understand the different version of the past can be constructed, and that historical narrative is partially dependent upon viewpoint.

Disciplinary knowledge is concerned with developing historical rational and critical thinking within enquiry, and can be categorised into seven disciplinary concepts that are systematically developed in our history curriculum:

- **Chronological Understanding** - being able to employ dates and terms to describe the past, and realise that the past can be divided into periods.
- **Historical enquiry using sources** - asking questions, using sources and evidence to construct and challenge the past.
- **Historical enquiry communicating ideas** - Communicating and organising finds with a systematic approach.
- **Cause and consequence** - selecting and combining information that might be deemed a cause and shaping it into a coherent causal explanation and understanding the relationship between an event and other future events.
- **Continuity and change** - analysing the pace, nature and extent of change.
- **Similarities and differences** - analysing the extent and type of difference between people, groups, experiences or places in the same historical period.
- **Historical significance** - understanding how and why historical events, trends and individuals are thought of as being important.
- **Historical interpretations** - understanding how and why different accounts of the past are constructed.

National Curriculum and EYFS Framework

Substantive Knowledge

Generative Knowledge

- **Substantive Concepts** embedded within units and revisited many times – civilization, monarchy, empire, invasion, war, parliament, trade and religion.
- **Chronological knowledge** - understanding broad characteristics and having an overview knowledge of historical periods (e.g. Romans, Ancient Egypt)

'Fingertip Knowledge'

Must Know Facts

- Knowledge of key facts and dates from units (e.g. Romans, Ancient Egypt)

Disciplinary Knowledge

The Approach to Historical Enquiry

'Asking historical questions, using sources and communicating ideas'

Disciplinary Concepts

Second-order concepts:

- 'Chronological Understanding'
- 'Historical Enquiry using Sources'
- 'Historical Enquiry' Communicating Ideas'
- Cause and Consequence'
- 'Continuity and Change'
- 'Similarities and Differences'
- 'Historical Significance'
- 'Historical Interpretations'

National Curriculum Programmes of Study							
		Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
		<i>Pupils should be taught about:</i>			<i>Pupils should be taught about</i>		
Historical Knowledge	Knowledge and understanding of British History	<ul style="list-style-type: none"> Changes within living memory. Where appropriate, these should be used to reveal aspects of change in national life 			<ul style="list-style-type: none"> Changes in Britain from the Stone Age to the Iron Age The Roman Empire and its impact on Britain Britain's settlement by Anglo-Saxons and Scots The Viking and Anglo-Saxon struggle for the Kingdom of England to the time of Edward the Confessor A study of an aspect or theme in British history that extends pupils' chronological knowledge beyond 1066 		
	Local History	<ul style="list-style-type: none"> Significant historical events, people and places in their own locality. 			<ul style="list-style-type: none"> A local history study 		
	Knowledge and understanding of the Wider World	<ul style="list-style-type: none"> Events beyond living memory that are significant nationally or globally The lives of significant individuals in the past who have contributed to national and international achievements. Some should be used to compare aspects of life in different periods 			<ul style="list-style-type: none"> The achievements of the earliest civilizations – an overview of where and when the first civilizations appeared and a depth study Ancient Greece – a study of Greek life and achievements and their influence on the western world A non-European society that provides contrasts with British history 		
History Skills and Concepts	<ul style="list-style-type: none"> Be aware of the past, using common words and phrases relating to time Fit people and events into a chronological framework Identify similarities and differences between periods Use wide vocabulary of everyday historical terms Ask and answer questions Choose and use from stories and other sources to show understanding Understand some ways we find out about the past 			<ul style="list-style-type: none"> Continue to develop chronologically secure knowledge of history Establish clear narratives within and across periods studied Note connections, contrasts and trends over time Develop the appropriate use of historical terms Regularly address and sometimes devise historically valid questions Understand how knowledge of the past is constructed from a range of sources Construct informed responses by selecting and organising relevant historical information 			

	<ul style="list-style-type: none">• Identify different ways in which past is represented	<ul style="list-style-type: none">• Understand that different versions of the past may exist, giving some reasons for this
